Benson Misi

AnixSys Pvt ltd

TABLE OF CONTENTS

INTRODUCTION

With the goal of delivering robust and efficient enterprise solutions in the education sector AnixSys Pvt Ltd has been designing   web /mobile applications for the past 3 years.

Even though the organization was official registered in 2019, the team lead by Mr. Benson Misi has over 10 years experience designing and implementing software solutions.

Since our official registration, we have worked with all types of companies starting from NGOs, Government, colleges etc. and have excelled in every project we have taken.

LEADERSHIP

Mr. Benson Misi is the CTO of AnixSys Pvt Ltd, He is a passionate software development specialist with over 10 years experience in the industry

He has worked on several projects high on the list is the Integrated University Management System that he developed while he was employed at Bindura University .

Mr Misi holds Honors Degree in Information Systems from the Midlands state university and Masters In Data Analytics from Chinhoyi University of Technology.

PROJECT

Kushinga Phikelela requires an efficient online System that will cover the following areas:

- Online examination registration system development
- Online results collection
- System designing linked to sage
- Online application system
- Student billing registration
- Gate scanning system, DH & library
- Bill hostel registration
- Mobile money integration
- bank integration

At AnixSys Pvt Ltd we have developed a solution that covers all the requests above and more. Using the experience Mr. Misi obtained during the 8 years at Bindura University were he built their current university Management system from scratch, we developed a solution that best fits institutions of higher learning

PORTFOLIO

AnixSys did an amazing job customizing and hosting moodle LMS for morgan zintec. We also trained all their staff on how to fully utilize the platform

Morgan Zintec (https://online.morganzintec.ac.zw)

We have also developed the institution's website and currently working on customizing our college management system in order to suit the institutions environment

Https://www.morganzintec.ac.zw

AnixSys developed a Call Center tracking tool for Zimbabwe national family planning Council. That will see their call center agents efficient capturing enquiries as they come through

Zimbabwe National Family Planning Council

Developed an asset tracking solution for Securities Exchange Commission of Zimbabwe

Securities Exchange Commission of Zimbabwe
